

CHAYAN NASKAR

(+91) 8584 038 798 | cnaskar.work@gmail.com | linkedin.com/in/cnaskar26

Frontend Engineer with 7+ years of experience building scalable, high-performance web applications using React, Angular, and TypeScript. Experienced in frontend architecture, GraphQL integrations, performance optimization, reusable component systems, and enterprise-scale eCommerce platforms. Strong background in analytics instrumentation, API integration, and Agile software delivery.

Skills

Frontend: React.js, Angular, Vue.js, Redux, React Hooks, Context API, JavaScript (ES6+), TypeScript, HTML5, CSS3

Architecture & APIs: Frontend Architecture, Microfrontends, Component-Driven Design, Design Systems, Component Libraries, REST APIs, GraphQL, API Integration, SPA, SSR, State Management, Scalability

Tools & Platforms: Git, Webpack, CI/CD, Adobe Analytics, DataLayer, Lighthouse, Jupyter Notebook

Testing & Practices: Jest, Cypress, Agile Scrum, Accessibility (WCAG), Responsive Design, Performance Optimization, Web Performance, Cross-Browser Compatibility, Unit Testing, Cross-functional Collaboration

Backend & Cloud: Node.js, AWS, Azure

Experience

Frontend Engineer | Xerox

Kolkata | Apr 2022 - Present

- Architected scalable Angular-based frontend solutions for a global eCommerce platform supporting multi-region deployments.
- Engineered subscription lifecycle workflows including onboarding, billing, and account management for enterprise-scale systems.
- Integrated GraphQL APIs for real-time pricing, configuration, and account operations.
- Improved frontend performance using lazy loading, code splitting, and Core Web Vitals optimization techniques.
- Implemented secure payment workflows and enhanced checkout reliability.
- Designed analytics instrumentation using DataLayer and Adobe Analytics to track funnel metrics and user behavior.
- Contributed to Node.js middleware for API orchestration, validation, and centralized error handling.
- Collaborated within Agile Scrum teams for sprint planning, estimation, and feature delivery.

Frontend Developer | Capital Numbers Infotech

Kolkata | Mar 2020 - Apr 2022

- Developed high-performance React applications integrated with headless WordPress CMS architecture.
- Implemented Redux-based state management and reusable component structures.
- Optimized rendering performance and frontend scalability across content-heavy applications.
- Worked across React, Angular, and Vue.js ecosystems for multiple client projects.

Programmer Analyst | Cognizant Technology Solutions

Kolkata | Sep 2018 - Dec 2019

- Developed analytics dashboards integrating Power BI reports and frontend visualization components.
 - Enhanced application performance and resolved cross-browser compatibility issues.
 - Collaborated with backend teams to deliver scalable data visualization solutions.
-

Projects

ONEPRINT - Subscription Platform

- Developed enterprise subscription workflows including plan selection, onboarding, and billing lifecycle management using Angular.
- Integrated GraphQL APIs with optimized query structures and caching mechanisms.
- Built analytics tracking architecture using DataLayer and Adobe Analytics.
- Applied performance optimization techniques including lazy loading and bundle optimization.
- Contributed to Node.js middleware for request validation and API orchestration.

CASINOTOP10 - AffiliatePlatform

- Architected a React-based headless WordPress frontend using REST APIs.
 - Designed reusable UI components and scalable theming systems.
 - Optimized bundle delivery and frontend asset loading for content-heavy pages.
-

Education

Bachelor of Technology in Computer Science & Engineering | Govt. College of Engg & Ceramic Technology

Kolkata | May 2014 - May 2018
